# A LOVE SONG TO THE INTERNET 2 mins

**BRAND VO:** 

# Belong internet presents a love song

### VERSE 1

Don't recall when I first turned you on, But I know we connected

Yeah sometimes folks might treat you wrong You're feelin' rejected

Got a history I'll never wipe So I wrote a song to set things right,

Cause I'm grateful to belong in your wide world

#### CHORUS

Of Unlimited data-ta

You fill me up with useful facts, Like Octopus don't fart

Before we met I hated cats

And I just thought you should know, You're my wonderful, whimsical, weirdly irresistible, wormhole

#### BRIDGE

Watching 6 hours of old Oscar speeches Finding a site that sells medical leeches

Chatting on a forum 'bout stuff that tastes like bluuuuue.

Learning how to turn spinach into pasta Shooting aliens with some kid in Alaska

Reading how the air gets clean with whale pooooh

### CHORUS

In your Unlimited data-ta

You fill my phone with apps and memes Now-I espanol habla I never knew that goats could sing And I just thought you should know, You're my wonderful, whimsical, weirdly irresistible

And if everyone switched ISP's the folks who paid for me to sing Could help tackle this climate thing

So I can stay in love with my... wormhole.

Yeah yeah yeah, in my wormhole My wormhole...(FADES)
