MV:	Every day you have around seventy thousand thoughts, which is about one, every second. Some, more important than others.
	A thought every second?
	I didn't know that.
	Who worked that out?
	Do I have that many?
	Seems far-fetched.
	Well that was one.
	And here's another one.
	Hey, it's true!
	Man I'm hungry.
	Who counted them?
	Did I eat breakfast?

Are they all new thoughts?

Or do some recur?

Man I'm hungry.

Was it a scientist?

Wish I had an apple.

I could be a scientist.

Uni next year.

Still can't believe it.

Or a choc milk.

Not sure what to study.

Career's a scary word.

Curtin Open Day!

Have I missed it?

Good kebabs at Curtin.

No, it's this Sunday.

Saw that ad.

About brighter minds.

...garlic sauce.

Remember Curtin Open Day!

This Sunday.

Starts at ten.

I love kebabs...
