

Cider From A Harder Time - Radio

Sneeze

We hear bar ambience, and the sound of a pouring cider from the tap.

We then hear a deep male voiceover.

VO: Mercury Cider was first brewed in Tasmania, 1911.

A time when your manhood was judged by the decibel of your sneeze.

We hear our character wind up for a sneeze and lets loose followed by the sound of shattering glass.

He then speaks in a slightly cocky tone.

VO: Pardon me.

Mercury. Cider from a harder time.

For 18 plus only.
